Pocket Programme

20th MEETING OF THE
EUROPEAN ASSOCIATION
FOR HAEMATOPATHOLOGY

Overlaps, borderlines and mimics

www.eahp-sh2021.com

WELCOME MESSAGE FROM PRESIDENT

On behalf of the European Association for Haematopathology and the Society for Hematopathology (SH), it gives me great pleasure to welcome you to the Virtual 20th Meeting of the European Association for Haematopathology. With our web-based platform, we offer you an integrated program on "Overlaps, borderlines and mimics". This meeting will provide an opportunity to take stock of the state of haematopathology today, address current contentious diagnostic issues and shape the direction of future research.

During five days, six workshop sessions with case discussions on challenging and controversial areas in lymphoma and bone marrow diagnostics will form the core of the online meeting. Keynote lectures by renowned speakers will provide you with scientific background on the biology of aggressive B-cell lymphomas and classical Hodgkin lymphoma, while our pathology topic speakers will offer you guidelines on how to deal with the challenging grey zones and pitfalls in daily pathology practice. Q&A sessions, moderated in real time, will allow you to participate in lively discussions and interactions with invited speakers as well as with the scientific abstract and workshop case presenters. Please take time to visit the

online poster exhibition in which over 100 posters are displayed and engage in discussion with the authors.

On Thursday April 29th, we will close with a session dedicated to the planned 5th edition of the WHO Classification of Tumours of Haematopoietic and Lymphoid Tissues for which the first preparations have recently been started. We invite all delegates to participate in this interactive discussion session, and we anticipate it being a highlight of the 20th EAHP-SH Meeting.

The European Association for Haematopathology is and remains committed to improving haematopathology knowledge and raising the standards of education, research and clinical practice, especially now in times when the COVID-19 pandemic has such a major impact on our professional and private lives.

Wishing you five exciting days to roam the fields of lymphoid and bone marrow pathology with us.

Daphne de Jong
President of the European Association
for Haematopathology
